

CYBERSECURITY CHECKLIST

Every year new cybersecurity technologies, vendors and solutions emerge — yet breaches continue to hit the headlines. Organisations have scrambled to develop a better security posture, but the dizzying array of options leaves resource-constrained IT and security leaders wondering how to proceed.

Creative ITC is a multi award-winning cloud services provider with a successful track record of delivering game-changing technology solutions to some of the world's leading businesses. We've partnered with global security leader, Arctic Wolf, to help you find the right security solution for your organisation.

Follow our at-a-glance comparison of cybersecurity solutions to help you find the right combination of technology, features and people to help you stay ahead of today's evolving threat landscape.

The Cybersecurity Solution Landscape

There are 5 main options

| DIY Options  | | Managed Options  | | |
|---|--|---|---|---|
| EDR Endpoint Detection and Response | SIEM Security Information and Event Management | MEDR Managed Endpoint Detection and Response | MDR Managed Detection and Response | SOCaaS Security Operations Centre as a Service |
| Protects endpoints, but it still requires the right people and processes to operate | Collects security data from network devices. To function efficiently, you need a team with various skillsets | Only covers endpoints, leaving vulnerabilities within your organisation | Capabilities range across vendors. Correlates host and network data for threat detection and incident investigation | Combines people, processes, and technology for 24x7 monitoring across network, endpoints, and the cloud |

Arctic Wolf

Which security operations approach is right for your organisation?

| | EDR | MEDR | SIEM | MDR | SOCaaS |
|---|-----|------|------|-----|--------|
| Real-time Alerting Rapidly contain incidents and gain detailed guidance on remediation. | ✓ | ✓ | ✓ | ✓ | ✓ |
| Issue Triage Critical events and actionable insights are delivered when you need them the most. | ✓ | ✓ | ✓ | ✓ | ✓ |
| Comprehensive Visibility See the complete picture. Unlimited event data, and on-demand access to retained logs. | ✗ | ✗ | ✓ | ✓ | ✓ |
| Threat Hunting Daily hunting for suspicious activity across your environment. | ✗ | ✓ | ✓ | ✓ | ✓ |
| Simple Deployment No performance impact, zero—maintenance, and hitless updates are delivered seamlessly. | ✓ | ✓ | ✗ | ✓ | ✓ |
| Vulnerability Management Discover digital risks like system misconfigurations and corporate credential exposure. | ✓ | ✓ | ✓ | ✗ | ✓ |
| Predictable Pricing No limits on data collection or retention. | ✗ | ✗ | ✗ | ✗ | ✓ |
| Cloud Monitoring Identify cloud risks, monitor cloud platforms, and simplify cloud security. | ✗ | ✗ | ✗ | ✗ | ✓ |
| Dedicated 24x7 Security Operations Experts Your environment is monitored around the clock by a Concierge Security Team. | ✗ | ✗ | ✗ | ✗ | ✓ |
| Endpoint Monitoring Collect actionable intelligence from your IT environment, scan endpoints for vulnerabilities and misconfigurations, and respond to threats. | ✓ | ✓ | ✓ | ✗ | ✓ |
| Unlimited Logs Unlimited access to your data so you never have to sacrifice visibility for saving money. | ✗ | ✗ | ✗ | ✗ | ✓ |

How our SOCaaS solution stands out from the pack

1

The Arctic Wolf Platform

Processing over 200 billion events per day, driving faster threat detection, simplifying incident response and eliminating alert fatigue.

2

Concierge Security Team (CST)

Continuously monitoring security events enriched and analysed by the Arctic Wolf Platform, improving your overall security posture.

3

Predictable Pricing

No limits placed on data collection. The more data we collect and store on your behalf, the better we are at bolstering your security posture.

4

Core Technology Ownership

We control our entire technology stack and roadmap – delivering functionality faster for our customers.

5

Strategic Guidance

Leveraging their security expertise combined with knowledge of your environment, CSTs introduce ways to improve your posture along your security journey.

6

Broad Visibility and Coverage

Providing enhanced visibility on-premises (endpoint, network, any log source) as well as cloud (SaaS, IaaS).

Schedule a Security Consultation

Get in touch to discuss your cybersecurity strategy and find out more about our industry leading SOCaaS solution, powered by Arctic Wolf.
