Our Solutions

BaaS

Backup-as-a-Service

Managed on-site, remotely or as a mix of both, protect your most valuable customer, product, financial and employee information.

DRaaS

Disaster Recovery-as-a-Service

Ensures full recovery of data, getting your business up-and-running within the shortest possible window.

MaaS

Monitoring-as-a-Service

A comprehensive proactive monitoring solution for devices, networks and applications

SOCaaS

Security Operation Centre-as-a-Service

Provided directly by Creatives partner, Arctic Wolf. Strengthen your security posture with leading Manage Detection & Response services

STaaS

Storage-as-a-Service

Storage shouldn't come down to an either/or choice. Have the flexibility to choose which data and workloads to keep on-site or to go into the cloud.

DaaS

Desktop-as-a-Service

VDI solutions that can be consumed in the cloud, on premise or in a hybrid model.

IaaS

Infrastructure-as-a-Service

Unlock the full potential of transformative technologies with a flexible approach to virtual CPU, RAM and System Storage.

NaaS

Network-as-a-Service

Bolster up your networking capabilities using SDWAN, Firewall Technologies or VPN/Point-to-Point connectivity

SUPaaS

Support-as-a-Service

First, Second Line and Third Line support ; pick and choose support elements right for you and your business.

Our Customers

"Creative-ITC has consistently provided a broad spectrum of exceptional service and support spanning the entire technology vertical for me for many years. They are the first number I dial when I need thoughtful feedback on any IT related project or initiative."

Cameron Williams

Chief Information Officer, Vertex Energy

"Nobody else has the technical expertise and deep industry understanding to do what Creative can."
